

# Maciej Sołowiej

## TECH

## EXPERIENCE

### eFitness

#### .NET Developer - 05.2024 - Present

- Designing and implementing scalable systems based on microservices architecture
- Decomposing existing monolithic applications into microservices while maintaining system continuity
- Implementing design patterns supporting inter-service communication, including Event Sourcing, CQRS, and Message Queue
- Experience with application containerization using Docker and orchestration through Kubernetes
- Creating scalable and efficient API interfaces adhering to REST principles
- Documenting APIs using tools such as Swagger/OpenAPI
- Optimizing performance through caching and pagination implementation
- Ensuring endpoint security through input validation and error handling
- Deploying and managing applications in Azure
- Applying Clean Code and SOLID principles in test implementation

## TECH SKILLS

- Unit Tests
- ASP.NET
- Entity Framework
- SQL
- REST

## SOFT SKILLS

- Teamwork
- Communication
- Open mind
- Eager to learn

## HOBBIES

- Cars
- Daily Tech
- E-Sport

## EDUCATION

### Collegium Da Vinci

Computer Science 2022 - Present

## LANGUAGES

Polish - Native

English - B2/C1
